DAIRY FARMERS WILL RECEIVE \$13.34 FOR JANUARY MILK

NEW YORK, February 13---Dairy farmers who supplied milk plants regulated under the New York-New Jersey marketing orders during January 1985 will be paid on the basis of a uniform price of \$13.34 per hundredweight (28.7 cents per quart). Market Administrator Thomas A. Wilson also stated that the price was \$13.38 in December 1984 and \$12.99 in January 1984. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

The seasonal incentive plan does not affect the uniform price for the month of January.

A total of 16,627 dairy farmers supplied the New York-New Jersey Milk Marketing Area with 945,711,201 pounds of milk during January 1985. This was a decrease of 3.1 percent (about 31 million pounds) from last year. The gross value to dairy farmers for milk deliveries was \$129,846,023.97. This included differentials required to be paid to dairy farmers but not voluntary premiums or deductions authorized by the farmer.

Regulated milk dealers (handlers) used 401,159,031 pounds of milk for Class I, 42.4 percent of the total. This milk is used for fluid milk products such as homogenized^d flavored, low test, and skim milks. For January 1985, handlers paid \$14.97 per hundredweight (32.2 cents per quart) for Class I milk compared with \$14.81 a year ago.

The balance (544,552,170 pounds or 57.6 percent) was used to manufacture Class II products including butter, cheese, ice cream, and yogurt. Handlers paid \$12.43 per hundredweight for this milk.

The uniform price is based on milk containing 3.5 percent butterfat. For January 1985, there was a price differential of 16.3 cents for each one-tenth of one percent that the milk tested above or below the 3.5 percent standard.

All prices quoted are for bulk tank milk received within the 201-210 mile zone from New York City.
